TravelMate 5740/5740G Series

How does the Travelmate 8572 achieve all day battery life^?

Acer designed the Travelmate 8572 series to be the most power efficient notebook on the market from the ultra-low-voltage processor to its magnesium alloy chassis that improves durability & dissipates heat more effectively. To conserve power consumption the Travelmate 8572 features a mercury free 15"

LED backlit LCD panel & ATI switchable graphics which intelligently switches between onboard & discrete graphics. To compliment the components which make up the Travelmate 8572 Acer ePower management comes preinstalled allowing users to customised their own power schemes for AC & DC power. The end result for the end-user is over a 40% more efficient notebook in comparison to traditional notebooks.

^Disclaimer: Actual battery life varies by usage, settings, and operating conditions. For MobileMark 2007 productivity benchmark visit: acer.com/tlx_test

VERITON Built for Business

Plant 1 Million Trees!

Notebook = 1 Tree
Desktop = 2 Trees
Server = 10 Trees

Acer is committed to achieve planting 1 million trees nationally in the next 2 years. This equates to offsetting over 166,000 tonnes of carbon dioxide over their lifetime. Please support us in our goal and at the same time enjoy Acer's award winning range of products at great value prices. For more information please visit www.acer.com.au

With the **Aspire easyStore H341**, you can:

- Store your photos, music and video in one place.
- Protect your files with automatic backups, quick recovery and antivirus software.
- Share your files with family and friends anytime, anywhere.
- Grow your storage capacity by adding hard drives as you wish.

Acer Smart Server Manager

An application that is available as part of the new Acer Servers is Acer Smart Server Manager. Acer Smart Server Manager is a complete management solution offered for centralised management of your Acer Servers. It uses industry standard IPMI for managing the Servers and provides complete remote management capability for any IPMI enabled Server. Acer Smart Server Manager provides an intuitive browser and web interface that allows administrators to manage the devices using any standard web browser. Through this unique, easy-to-use interface, IT management can help expedite response to any outages that may occur, and help eliminate problems before they impact the business.

Aspire easyStore H341

Support up to 8TB of Internal Storage

P/N: PG.T1A0W.004-WO6

- Microsoft® Windows® Home Server
- 1 x 1TB SATA Hard Drive 7200 RPM
- Use as a media server or to backup and restore data

Expandable to up to 8TB of internal storage and running on Windows Home Server, the Aspire easyStore H341 is the perfect addition to your home or office. From anywhere in the world you can access your stored files. Stream video to your display via an external media player, listen to music and view photos stored on the Aspire easyStore H341.
